

## LET'S BUILD COMPUTER SKILLS TOGETHER

**DigitALL offers FREE beginner computer classes both in Winnipeg and remote and rural communities across Manitoba. We would like to partner with community organizations whose clients would benefit from learning basic computer knowledge.**

### ➤ Goal:

We strive to increase digital literacy in Manitoba by improving confidence with computer and internet skills through short courses delivered in a trusted local environment.

### ➤ Invaluable Skills:

Our nine-hour courses are led by knowledgeable instructors who teach the following skills:

- ✓ Basic computer skills
- ✓ File management
- ✓ Video calls
- ✓ Email
- ✓ Google Drive
- ✓ Internet navigation
- ✓ MS Office (Word, Excel, Power Point)
- ✓ Social media safety (Facebook, Instagram, Twitter, LinkedIn)
- ✓ Online job searching
- ✓ Business communication
- ✓ E-commerce
- ✓ Presentation tools
- ✓ Basic tablet skills

### ➤ Project Impact:

Having a basic understanding of computers and computer programs will enable individuals to gain digital skills such as email, texting and how to navigate the Internet. These important skills also help learners to develop the ability to comprehend and critically evaluate their role in online environments.

Expected outcomes for both individuals and communities are increased opportunities to complete further education, access to employment opportunities and overall participation in the digital world.

With funding from

## COMMUNITIES WE CURRENTLY SERVE

- Winnipeg EN/FR
- Brandon
- Flin Flon
- Churchill
